Brake Pressure Bleeders

A must for every workshop.

Tired of wasting valuable workshop time bleeding problematic brake and clutch systems? Looking for a machine that will increase your workshop's efficiency? Look no further than the Partswise[®] range of Brake Pressure Bleeders. These machines have the potential to make the vehicle manufacturers specified 2 year brake fluid changes a highly profitable part of your business.

Two models to cater for your needs.

Introducing the Bleedpro 50, the handy, portable carry around unit, and the Bleedpro 100, a top of the range, rugged and easily wheeled around machine.

Backed up with excellent warranties.

A full 12 month warranty on the machine, with the high capacity pump warranted for 2 years. A full range of spare parts stocked here in Australia providing back up and peace of mind.

A long list of impressive features.

- Market leading exclusive pulsation mode, ideal for removing those stubborn pockets of air, particularly in clutch systems.
- Built in micron filter in the brake fluid reservoir. An essential part of keeping fluid completely free of moisture when not in use.
- Totally portable, can be used anywhere with a 12 volt power source.
- No need for air pressure.
- One man operation.
- European manufactured with a proven track record. Supplied to leading European firms for over 12 years.
- Supplied with a 1 litre fluid bottle for old fluid.
- Vibration free, clearly visible 65mm pressure guage.
- Exceptionally durable housing made from stainless and galvanized steel with high quality, non dribble quick connect couplings.
- Acoustic alarm to warn of reversed polarity, low brake fluid level, with auto shut down when fluid reaches a low level.
- Simple, and easy to use.

A comprehensive range of adapters.

A large range of exceptionally well engineered adapters to cater for all needs. Adapters constantly being developed for the Australian market. Ask your Partswise[®] distributor for recommendations on what adapters are needed for your market, or choose one of our starter packs.

A brand you can trust.

Partswise[®] have been distributing innovative products to the Australian brake and clutch market for many years. Trusted by mechanics Australia Wide, the range includes Brake Tubing, Hardware, Comprehensive Rubberware applications, Remanufactured Cylinders, Boosters and much more!
